Investment & Forecast Report on China Hydropower Industry, the Year of 2024 -2028

中投产业研究院出品

中投产业研究院出品

中投产业研究院出品

内容简介

CHAPTER 1 RELATED OVERVIEW OF THE HYDROPOWER INDUSTRY

1.1 Definition of hydropower industry

1.1.1 Definition of hydropower

1.1.2 Characteristics of hydropower

1.1.3 Classification of hydropower station

1.2 The concept and definition of small hydropower

1.2.1 Meaning and resources of small hydropower

1.2.2 Classification of small hydropower

1.2.3 The characteristics and advantages of small hydropower

1.3 Introduction of Chinese hydropower resources

1.3.1 Chinese reserves of hydropower resources

1.3.2 Characteristics of Chinese hydropower resources

1.3.3 Status of hydropower resources in China' s energy system

CHAPTER 2 ANALYSIS OF DEVELOPMENT OF INTERNATIONAL HYDROPOWER INDUSTRY DEVELOPMENT FROM 2011 TO 2013

2.1 Development overview of the global hydropower industry from 2011 to 2013

2.1.1 Sustainable development of the world requires hydropower development

2.1.2 Development review of the global hydropower industry in 2010

2.1.3 Global hydropower increases from 2011 to 2012

2.1.4 Analysis of global water consumption in 2012

2.2 Analysis of hydropower development in Europe

2.2.1 Development review of European hydropower market

2.2.2 Hydroelectric project has achieved growth in the UK

2.2.3 French hydroelectric capacity status

2.2.4 Austrian hydropower development plan

2.2.5 Development and prospects of hydropower resources in Russia

2.3 Hydropower development in Asian countries

2.3.1 The Japanese government has formulated policy to promote the development of hydropower construction

2.3.2 Overview of the hydropower industry in Pakistan

2.3.3 Armenia small hydropower industry is flourishing

2.3.4 Myanmar vigorously develops hydropower to solve the power shortage

2.4 Analysis of hydropower development in other regions

2.4.1 Uganda will increase investment in hydropower projects

2.4.2 The African Union will actively promote the development of hydropower projects

2.4.3 Development status of Chilean hydropower

2.4.4 South American Itaipu hydropower station had highest generating capacity in the world in 2012

2.4.5 Canadian hydropower project investment status in future

2.4.6 The world' s largest hydropower project will launch in 2015

CHAPTER 3 OVERVIEW OF HYDROPOWER RESOURCES OF CHINA' S

MAJOR RIVERS

3.1 The Yangtze River

3.1.1 General overview

3.1.2 Hydropower resources

3.1.3 Types of tributaries

3.1.4 The Jinsha River

3.1.5 The Yalong River

3.1.6 The Tuo River

3.1.7 The Min River

3.1.8 The Jialing River

3.1.9 The Wu River

3.1.10 The Yuan River

3.1.11 The Xiang River

3.1.12 The Han River

3.1.13 The Gan River

3.2 The Yellow River

3.2.1 Overview of the Yellow River

3.2.2 Yellow River tributary

3.2.3 Yellow River upstream hydropower development status

3.2.4 Yellow River upstream hydropower planning

3.2.5 Hydropower planning in middle of Yellow River

3.2.6 Suggestions

3.3 The Pearl River

3.3.1 General overview

3.3.2 Hydropower development status

3.3.3 Pearl River tributaries

3.3.4 Development planning

3.4 Rivers in the border of Southwest China

3.4.1 The Yarlung Zangbo River

3.4.2 The Nu River

3.4.3 Lantsang River

CHAPTER 4 COMPREHENSIVE ANALYSIS OF CHINESE HYDROPOWER INDUSTRY FROM 2011 TO 2013

4.1 Overview of China' s hydropower industry

4.1.1 The significance of China to develop hydropower

4.1.2 The course of development of hydropower

4.1.3 The total installed capacity of hydropower in China ranked first in the world

4.1.4 China' s hydropower has made great economic and social contribution

4.2 Analysis of development of China' s hydropower industry from 2011 to 2013

4.2.1 Analysis of the hotspot of China' s hydropower industry in 2011

4.2.2 China' s hydropower development and construction status in 2012

4.2.3 Overview of China' s hydropower consumption in 2012

4.2.4 Analysis of the hotspot of China' s hydropower industry in 2012

4.2.5 Overview of hydropower industry development from January to May 2013

4.3 Analysis of Chinese hydroelectric yields from 2010 to 2012

4.3.1 Analysis of hydropower yield of national and major provinces from January to December 2010

4.3.2 Analysis of hydropower yield of national and major provinces from January to December 2011

4.3.3 Analysis of hydropower yield of national and major provinces from January to December 2012

4.4 Analysis of hydropower development situation from 2011 to 2013

4.4.1 China promulgated policies to strengthen management of hydropower construction in 2011

4.4.2 China implemented the new hydropower development regulations in 2011

4.4.3 Ministry of Environmental Protection issued a notice to regulate hydropower development in early 2012

4.4.4 Ministry of Environmental Protection clear guidelines for hydropower

development in 2012

4.4.5 In 2013, China proposed to actively develop hydropower

4.4.6 In 2013, the Ministry of Water Resources proposed to strengthen the construction of rural hydropower

4.5 Construction status of key hydropower projects from 2011 to 2013

4.5.1 In 2011, the Dadu River Houziyan Hydropower Station started construction

4.5.2 In 2012, the largest hydropower station in Sichuan Tibetan area put into operation

4.5.3 In 2012, the Three Gorges Hydropower Station units all entered commercial operation

4.5.4 In 2012, the first batch of units of Xiangjiaba Hydropower Station officially generated electricity

4.5.5 In 2013, Xinjiang Kushi Tayi Hydropower Station went into full production

4.5.6 In 2013, Yalong River Guandi Hydropower Station entered commercial operation

4.5.7 In 2013, Jinsha River Xiluodu Hydropower Station put into operation

4.6 Analysis of China' s small hydropower development from 2011 to 2013

4.6.1 Small hydropower' s position in the national economy

4.6.2 Overview of construction and development status of small hydropower in China

4.6.3 China' s small hydropower construction has ushered in development opportunities

4.6.4 China promotes construction of small hydropower generation fuel project

4.7 Analysis of river basin hydropower development

- 4.7.1 Analysis of river basin hydropower development principles
- 4.7.2 River basin hydropower development and management experience
- 4.7.3 River basin hydropower comprehensive development mode
- 4.7.4 Hydropower cascade development of river basin should be innovated
- 4.7.5 The overall development of single main basin is conducive to the basin hydropower development
- 4.8 The problems in the development of China' s hydropower industry
 - 4.8.1 China' s hydropower development deficiencies
 - 4.8.2 The main problem of China' s hydropower industry
 - 4.8.3 The constraints of China' s hydropower development should be solved
- 4.9 Analysis of development strategy of China' s hydropower industry
 - 4.9.1 The fast and effective development methods of China' s hydropower industry
 - 4.9.2 Using sustainable development concept to promote the scientific development of China' s hydropower
 - 4.9.3 China' s hydropower industry international development strategy
 - 4.9.4 New institutional mechanisms promotes sustainable development of hydropower

CHAPTER 5 ANALYSIS OF FINANCIAL SITUATION OF HYDROPOWER INDUSTRY IN CHINA

- 5.1 Economic scale of hydropower industry in China
 - 5.1.1 Sales revenue of hydropower industry in China between 2008 and 2012
 - 5.1.2 Total profit of hydropower industry in China between 2008 and 2012
 - 5.1.3 Total assets of hydropower industry in China between 2008 and 2012
- 5.2 Profitability of hydropower industry in China
 - 5.2.1 Loss suffering ratio of hydropower industry in China between 2008 and 2012

5.2.2 Gross margin of hydropower industry in China between 2008 and 2012

5.2.3 Cost-profit ratio of hydropower industry in China between 2008 and 2012

5.2.4 Sales-profit ratio of hydropower industry in China between 2008 and 2012

5.3 Operating capacity of hydropower industry in China

5.3.1 Receivables turnover ratio of hydropower industry in China between 2008 and 2012

5.3.2 Current assets turnover ratio of hydropower industry in China between 2008 and 2012

5.3.3 Total asset turnover ratio of hydropower industry in China between 2008 and 2012

5.4 Solvency of hydropower industry in China

5.4.1 Assets-liability ratio of hydropower industry in China between 2008 and 2012

5.4.2 Interest cover of hydropower industry in China between 2008 and 2012

5.5 Comprehensive appraisal of the financial status of the hydropower industry in China

5.5.1 Comprehensive appraisal of the financial status of the hydropower industry in China

5.5.2 Analysis of the economic factors affecting the financial status of hydropower industry in China

CHAPTER 6 ANALYSIS OF DEVELOPMENT OF RURAL HYDROPOWER ELECTRIFICATION IN CHINA FROM 2011 TO 2013

6.1 Overview of China' s rural hydropower electrification development from 2011 to 2013

6.1.1 Construction background of China' s rural hydropower electrification

6.1.2 Review of construction achievements of China' s rural hydropower electrification

6.1.3 Development of China' s rural hydropower electrification in 2011

6.1.4 Development of China' s rural hydropower electrification in 2012

6.1.5 In 2012, China regulated rural hydropower electrification project management

6.1.6 Future development of China' s new rural hydropower electrification

6.2 Layout planning and construction scale of new rural hydropower electrification during the "Twelfth Five-Year Planning" period

6.2.1 Layout planning

6.2.2 The scope of planning

6.2.3 Principles for determining the project

6.2.4 Construction scale

6.3 Regional planning of new rural hydropower electrification during the "Twelfth Five-Year Planning" period

6.3.1 Planning of the Southwest area

6.3.2 Planning of the Northwest area

6.3.3 Planning of the Northeast area

6.3.4 Planning of the Central area

6.3.5 Planning of the Southeast coastal area

6.4 Planning of management system and operation mechanism of new rural hydropower electrification during the "Twelfth Five-Year Planning" period

6.4.1 Management system

6.4.2 Operation mechanism

6.4.3 State-owned assets management

6.5 Investment estimation and benefit analysis of new rural hydropower electrification during the "Twelfth Five-Year Planning" period

6.5.1 Investment estimation

6.5.2 Financing

6.5.3 Benefit analysis

6.6 Problems in and solutions of the development of China' s rural hydropower electrification

6.6.1 The main problems in the construction of China' s rural hydropower electrification

6.6.2 The main countermeasures in the construction of China' s rural hydropower electrification

6.6.3 The impact of China rural hydropower electrification development on the environment and its countermeasures

6.6.4 Safeguards of China rural hydropower electrification development

CHAPTER 7 DEVELOPMENT OF HYDROPOWER INDUSTRY IN MAJOR REGIONS OF CHINA FROM 2011 TO 2013

7.1 Sichuan

7.1.1 Sichuan hydropower industry development status in 2012

7.1.2 Development goals of Sichuan hydropower industry in 2013

7.1.3 Sichuan Aba Prefecture continues to accelerate hydropower development during the "Twelfth Five-Year Planning" period

7.1.4 Mianyang hydropower project investment planning during the "Twelfth Five-Year Planning" period

7.1.5 Future development proposals in Sichuan hydropower industry

7.2 Yunnan

7.2.1 Immigration and investment status of major hydropower projects in Yunnan in 2011

7.2.2 Yunnan hydropower construction maintained stable development in 2012

7.2.3 Yunnan Province introduced new policy to develop small hydropower in 2012

7.2.4 Yunnan rural hydropower expansion and transformation plan has been approved in 2013

7.2.5 Prospects of Yunnan new rural hydropower electrification during the “Twelfth Five-Year Planning” period

7.3 Guizhou

7.3.1 Small hydropower development in Guizhou Province in 2011

7.3.2 Overview of hydropower construction in Guizhou Province in 2012

7.3.3 Measures for Guizhou rural hydropower industry to accelerate the development

7.3.4 Guizhou new rural hydropower installed target during the “Twelfth Five-Year Planning” period

7.4 Other provinces

7.4.1 Anhui

7.4.2 Guangdong

7.4.3 Guangxi

7.4.4 Jiangxi

7.4.5 Heilongjiang

7.4.6 Zhejiang

7.4.7 Chongqing

7.4.8 Fujian

7.4.9 Hebei

7.4.10 Shaanxi

CHAPTER 8 ANALYSIS ON MANAGEMENT OF CHINA’ S HYDROPOWER DEVELOPMENT AND CONSTRUCTION FROM 2011 TO 2013

8.1 Analysis on the management of hydropower exploration project

8.1.1 The nature of enterprise project management

8.1.2 Management mode of hydropower exploration and design project

8.1.3 Three phases of management of hydropower exploration and design project

8.1.4 Development ideas of management of hydropower exploration and design project

8.2 Analysis of the quality management of hydropower projects

8.2.1 Current situation of China' s hydropower project quality management

8.2.2 Problems in quality management of hydropower engineering

8.2.3 Recommendations to strengthen the hydropower project quality management

8.3 Hydropower project resettlement policy

8.3.1 Hydropower project resettlement content

8.3.2 Problems in the land acquisition and resettlement of Chinese hydropower project

8.3.3 Theoretical framework of the design and innovation of China' s hydropower project resettlement institution

8.3.4 Specific recommendations of the design and innovation of China' s hydropower project resettlement institution

8.4 Analysis of safety supervision of hydropower development enterprise

8.4.1 Background of safety supervision of hydropower development enterprise

8.4.2 Problems in safety supervision of China' s hydropower construction projects

8.4.3 China' s countermeasures to strengthen safety supervision over hydropower construction project owners

CHAPTER 9 RESEARCH ON HYDROPOWER TECHNOLOGY FROM 2011 TO

2013

9.1 Technical analysis of hydropower units

9.1.1 Analysis of capacity-plus transformation technology for hydropower generator

hydroelectric turbine generator set Rehabilitation Technical Analysis

9.1.2 Analysis of hydraulic turbine composite antiwear plate and pump composite antiwear seal rings technology

9.1.3 Technical analysis of hydroelectric generating excitation device

9.1.4 The cavitation erosion-resistant protective technology of metallic materials for turbine and pump

9.1.5 The cavitation erosion-resistant protective technology of non-metallic materials for turbine and pump

9.1.6 Technical analysis of micro hydro generating units (including load regulator)

9.1.7 Analysis of overspeed protection technology of rural hydropower station

9.2 Analysis of small hydropower technology

9.2.1 Analysis of renovation technology of small hydropower station

9.2.2 Analysis of runoff calculation technology of small hydropower projects

9.2.3 Analysis of free-pressure tunnel water diversion technology of small hydropower station

9.2.4 Small hydropower station technology transformation needs to be strengthened

9.2.5 New technology development trends of small hydropower equipment

9.3 Small hydropower station computer monitoring technology systems

9.3.1 The implementation status of computer monitoring system in small hydropower station

9.3.2 The implementation problems of computer monitoring system in small hydropower station

9.3.3 Operating personnel is lack of technical force

9.4 Analysis of China' s rural hydropower automation

9.4.1 Review of the rural hydropower automation development

9.4.2 Analysis of rural hydropower automation status

9.4.3 Analysis of rural hydropower station computer monitoring system structure and main equipment selection

9.4.4 Hydropower automation transformation case study (Hubei Weijiazhou Hydropower Station)

9.4.5 Hydropower automation transformation case study (Hunan Yushi Hydropower Station)

9.4.6 Development strategy for China' s rural hydropower station automation

CHAPTER 10 ANALYSIS OF DEVELOPMENT OF HYDROPOWER EQUIPMENT INDUSTRY FROM 2011 TO 2013

10.1 Overview of development of hydropower equipment industry from 2011 to 2013

10.1.1 China' s hydropower equipment significantly increased the domestic level

10.1.2 Development status of China' s hydropower equipment industry

10.1.3 Hydropower equipment utilization time status from January to May, 2013

10.1.4 Development of hydropower equipment market in good momentum

10.1.5 Large hydropower equipment manufacturing industry achieved breakthrough

10.2 Analysis of small hydropower equipment market from 2011 to 2013

- 10.2.1 Overview of China' s small hydropower equipment market
- 10.2.2 Opportunities and challenges of China' s small hydropower equipment industry coexist
- 10.2.3 Development situation of China' s small hydropower equipment market is grim
- 10.2.4 Development strategies of small hydropower equipment manufacturing enterprises
- 10.3 Analysis of yields of China' s hydroelectric generating set from 2010 to 2012
 - 10.3.1 Analysis of yields of hydroelectric generating set in the whole country and major provinces from January to December 2010
 - 10.3.2 Analysis of yields of hydroelectric generating set in the whole country and major provinces from January to December 2011
 - 10.3.3 Analysis of yields of hydroelectric generating set in the whole country and major provinces from January to December 2012
- 10.4 Challenges and countermeasures of hydropower equipment industry
 - 10.4.1 Problems in Chinese hydropower equipment industry
 - 10.4.2 Risks and impacts of China' s hydropower equipment industry
 - 10.4.3 Development proposals of Chinese hydropower equipment industry
 - 10.4.4 Innovation is the most important for hydropower equipment manufacturing enterprises
- 10.5 Outlook of China' s hydropower equipment industry
 - 10.5.1 Chinese hydropower equipment market has a broad future
 - 10.5.2 Chinese hydropower equipment will usher in the great leap forward development
 - 10.5.3 The development focus of China' s hydropower equipment industry in the future

CHAPTER 11 ANALYSIS OF INVESTMENT AND FINANCING OF HYDROPOWER INDUSTRY

11.1 Investment and financing opportunities and risks of Chinese hydropower industry

11.1.1 China encourages and supports private capital investment in electricity

11.1.2 China' s hydropower development and construction are facing new opportunities

11.1.3 China' s financial support for rural hydropower reform in 2013

11.1.4 In 2013, financial institutions supported the construction of small hydropower

11.1.5 Investment opportunities exist in hydropower equipment field

11.1.6 Financing prospects of China' s hydropower construction

11.1.7 Investment risks of hydropower industry

11.2 Analysis of China' s hydropower BOT Financing

11.2.1 Overview of BOT financing

11.2.2 Feasibility analysis of China' s hydropower using BOT financing

11.2.3 Advantage of BOT financing in hydropower project

11.2.4 Problems of using BOT financing in hydropower development

11.3 Major issues of investment and financing of Chinese hydropower industry to be addressed

11.3.1 Relationship between hydropower development and environmental protection

11.3.2 Investment benefit protection of hydropower enterprises

11.3.3 The establishment of relatively open hydropower investment market

11.3.4 Selection of hydropower investment and development mode

11.3.5 The establishment of an effectively competitive hydropower development model

11.3.6 Optimal combination of hydro financing structure

11.3.7 The balance between the interests of hydropower investment

11.4 Investment and development countermeasures of China' s hydropower industry

11.4.1 Establishment of lively hydropower investment management system

11.4.2 Introduction of strategic investors to ease capital shortage

11.4.3 focus on the guarantee of hydropower intensive development

11.4.4 adjustment and optimization of the debt structure of construction funds

11.4.5 further broaden the financing methods and channels

11.4.6 Establish the mechanism for guidance and inspiration of hydropower investment expansion

11.4.7 Formation of "multi-lifted" investment allocation and cooperation mechanisms

11.4.8 Investment in hydropower development should be shifted to the Tibetan Plateau

CHAPTER 12 PROSPECTS AND DEVELOPMENT TRENDS OF HYDROPOWER INDUSTRY

12.1 Prospect of hydropower industry

12.1.1 China' s hydropower development has a broad space for development

12.1.2 China' s hydropower industry will continue sustained and rapid development

12.1.3 Prospects of China' s rural hydropower in the future

12.1.4 Hydropower development in western China will enter a new phase

12.2 The "Twelfth Five-Year Planning" of hydropower development

12.2.1 Development situation

12.2.2 Guidelines and objectives

12.2.3 Key tasks

12.2.4 Planning and implementation

12.2.5 Analysis of Investment estimation and social environment influence

12.3 CIConsulting' s prediction of the development of Chinese hydropower industry from 2013 to 2017

12.3.1 Analysis of the factors affecting the development of hydropower industry

12.3.2 CIConsulting' s prediction of the revenue of Chinese hydropower industry from 2013 to 2017

12.3.3 CIConsulting' s prediction of the profit of Chinese hydropower industry from 2013 to 2017

12.3.4 CIConsulting' s prediction of the output value of Chinese hydropower industry from 2013 to 2017

12.3.5 CIConsulting' s prediction of the yield of Chinese hydropower industry from 2013 to 2017

12.3.6 CIConsulting' s prediction of total installed capacity of China' s hydropower from 2013 to 2017

CHAPTER 13 OPERATING ANALYSIS OF KEY HYDROPOWER ENTERPRISES

13.1 China Yangtze Power Co., Ltd.

13.1.1 Development condition between 2006 and 2012

13.1.2 Overall size and profitability

13.1.3 Analysis of solvency

13.1.4 Analysis of operating capacity

13.1.5 Analysis of profitability

13.1.6 Analysis of growth capacity

13.2 Huanghe Hydropower Development Co. Ltd.

13.2.1 Development condition between 2006 and 2012

13.2.2 Overall size and profitability

13.2.3 Analysis of solvency

13.2.4 Analysis of operating capacity

13.2.5 Analysis of profitability

13.2.6 Analysis of growth capacity

13.3 Longtan Hydropower Development Co. Ltd.

13.3.1 Development condition between 2006 and 2012

13.3.2 Overall size and profitability

13.3.3 Analysis of solvency

13.3.4 Analysis of operating capacity

13.3.5 Analysis of profitability

13.3.6 Analysis of growth capacity

13.4 Guizhou Wujiang Hydropower Development Co., Ltd.

13.4.1 Development condition between 2006 and 2012

13.4.2 Overall size and profitability

13.4.3 Analysis of solvency

13.4.4 Analysis of operating capacity

13.4.5 Analysis of profitability

13.4.6 Analysis of growth capacity

13.5 Wuling Power Co., Ltd.

13.5.1 Development condition between 2006 and 2012

13.5.2 Overall size and profitability

13.5.3 Analysis of solvency

13.5.4 Analysis of operating capacity

13.5.5 Analysis of profitability

13.5.6 Analysis of growth capacity

13.6 Yalong River Hydropower Development Co., Ltd.

13.6.1 Development condition between 2006 and 2012

13.6.2 Overall size and profitability

13.6.3 Analysis of solvency

13.6.4 Analysis of operating capacity

13.6.5 Analysis of profitability

13.6.6 Analysis of growth capacity

13.7 Huaneng Lancang River Hydropower Co., Ltd. (Guandu Region)

13.7.1 Development condition between 2006 and 2012

13.7.2 Overall size and profitability

13.7.3 Analysis of solvency

13.7.4 Analysis of operating capacity

13.7.5 Analysis of profitability

13.7.6 Analysis of growth capacity

13.8 Hubei Qingjiang Hydropower Development Co., Ltd.

13.8.1 Development condition between 2006 and 2012

13.8.2 Overall size and profitability

13.8.3 Analysis of solvency

13.8.4 Analysis of operating capacity

13.8.5 Analysis of profitability

13.8.6 Analysis of growth capacity

13.9 East China Tianhuangping Pumped Storage Power Co., Ltd.

13.9.1 Development condition between 2006 and 2012

13.9.2 Overall size and profitability

13.9.3 Analysis of solvency

13.9.4 Analysis of operating capacity

13.9.5 Analysis of profitability

13.9.6 Analysis of growth capacity

13.10 Sichuan Baozhusi Hydropower Plant of China Huadian Corporation

13.10.1 Development condition between 2006 and 2012

13.10.2 Overall size and profitability

13.10.3 Analysis of solvency

13.10.4 Analysis of operating capacity

13.10.5 Analysis of profitability

13.10.6 Analysis of growth capacity

13.11 Huanghe Hydropower Development Co., Ltd. (Xiaolangdi Construction Bureau)

13.11.1 Development condition between 2006 and 2012

13.11.2 Overall size and profitability

13.11.3 Analysis of solvency

13.11.4 Analysis of operating capacity

13.11.5 Analysis of profitability

13.11.6 Analysis of growth capacity

13.12 Guodian Daduhe Company Jizui Hydropower Generation Plant

13.12.1 Development condition between 2006 and 2012

13.12.2 Overall size and profitability

13.12.3 Analysis of solvency

13.12.4 Analysis of operating capacity

13.12.5 Analysis of profitability

13.12.6 Analysis of growth capacity

13.13 Fujian Shuikou Power Generation Group Co., Ltd.

13.13.1 Development condition between 2006 and 2012

13.13.2 Overall size and profitability

13.13.3 Analysis of solvency

13.13.4 Analysis of operating capacity

13.13.5 Analysis of profitability

13.13.6 Analysis of growth capacity

13.14 Guotou Yunnan Dachaoshan Hydropower Company Limited (Wuhua Region)

13.14.1 Development condition between 2006 and 2012

13.14.2 Overall size and profitability

13.14.3 Analysis of solvency

13.14.4 Analysis of operating capacity

13.14.5 Analysis of profitability

13.14.6 Analysis of growth capacity

13.15 Hubei Qingjiang Hydropower Development Co., Ltd. (Shuibuya)

13.15.1 Development condition between 2006 and 2012

13.15.2 Overall size and profitability

13.15.3 Analysis of solvency

13.15.4 Analysis of operating capacity

13.15.5 Analysis of profitability

13.15.6 Analysis of growth capacity

13.16 Guizhou Qianyan Power Co., Ltd.

13.16.1 Development condition between 2006 and 2012

13.16.2 Overall size and profitability

13.16.3 Analysis of solvency

13.16.4 Analysis of operating capacity

13.16.5 Analysis of profitability

13.16.6 Analysis of growth capacity

13.17 Datang Yantan Hydropower Co., Ltd.

13.17.1 Development condition between 2006 and 2012

13.17.2 Overall size and profitability

13.17.3 Analysis of solvency

13.17.4 Analysis of operating capacity

13.17.5 Analysis of profitability

13.17.6 Analysis of growth capacity

13.18 Hanjiang hydropower (Group) Co., Ltd.

13.18.1 Development condition between 2006 and 2012

13.18.2 Overall size and profitability

13.18.3 Analysis of solvency

13.18.4 Analysis of operating capacity

13.18.5 Analysis of profitability

13.18.6 Analysis of growth capacity

13.19 Tianshengqiao- I Hydro-Power Development Co., Ltd.

13.19.1 Development condition between 2006 and 2012

13.19.2 Overall size and profitability

13.19.3 Analysis of solvency

13.19.4 Analysis of operating capacity

13.19.5 Analysis of profitability

13.19.6 Analysis of growth capacity

13.20 Sichuan Huaneng Baoxing Power Co., Ltd.

13.20.1 Development condition between 2006 and 2012

13.20.2 Overall size and profitability

13.20.3 Analysis of solvency

13.20.4 Analysis of operating capacity

13.20.5 Analysis of profitability

13.20.6 Analysis of growth capacity

APPENDIX

Appendix 1: Water Law of People' s Republic of China

Appendix 2: Electricity Law of People' s Republic of China

Appendix 3: Interim Measures for Water Storage Safety Appraisal of Hydropower Construction Project

Appendix 4: Provisional Regulations on Procedures Management of Water Conservancy Project Construction

Appendix 5: Measures for Price Administration of Water Supply of Water Engineering

Appendix 6: Regulations of dam operating safety management of hydropower station

Appendix 7: Hydropower Project Budget Estimate Adjustments Management Approach (for Trial Implementation)

Appendix 8: Administration Approach of Checking and Acceptance of Hydroelectric Projects

Appendix 9: Measures for Administration of Small Hydropower Replacing Firewood Project

Appendix 10: Management Approach of Construction of New Rural Hydropower Electrification Project

图表目录

Chart Comparison between China' s renewable energy reserves and total reserves of the world

Chart Chinese water resources scale map

Chart Chinese river water reserves

Chart Possible development of water resources in China

Chart China water resource by basin

Chart Ranking of hydropower generation in the world in 2010

Chart National distribution of global water and electricity consumption in 2012

Chart Regional distribution of global water and electricity consumption in 2012

Chart global consumption of water and electricity sub-regional

Chart Russia' s future hydropower development plan according to the basic requirement indicators before 2030 (1)

Chart Russia' s future hydropower development plan according to the basic requirement indicators before 2030 (2)

Chart Russia' s future hydropower development plan according to the highest requirement indicators before 2030 (1)

Chart Russia' s future hydropower development plan according to the highest requirement indicators before 2030 (2)

Chart Construction plan of pumped storage power station in Russia from 2006 to 2030

Chart Distribution of Russian' s future hydropower stations and pumped storage power stations

Chart Comparison of sources of the Yangtze River

Chart Subsections of the Yangtze River

Chart Yangtze River index

Chart Basic situation of major tributaries of Yangtze River

Chart Tributaries index of Yangtze River

Chart The Yangtze River water resources

Chart Yellow River Basin natural annual runoff distribution table

Chart Statistics of subsections of Yellow River

Chart the Pearl River Basin

Chart Summary of each river and water resource amount of Pearl River Basin

Chart Table of the major rivers of Pearl River Basin

Chart Phased construction goals of Pearl River Basin water resources

Chart The monthly cumulative hydropower generating capacity and growth changing trend comparison chart from 2011 to May 2013

Chart Comparison of monthly data of hydropower investment from 2011 to May 2013

Chart Hydropower production data in the whole country in 2010

Chart Hydropower production data in the Hubei Province in 2010

Chart Hydropower production data in the Sichuan Province in 2010

Chart Hydropower production data in the Yunnan Province in 2010

Chart Hydropower production data in the Hunan Province in 2010

Chart Hydropower production data in the Fujian Province in 2010

Chart Hydropower production data in the Guangxi Zhuang Autonomous Region in 2010

Chart Hydropower production data in the Guizhou Province in 2010

Chart Hydropower production data in the whole country in 2011

Chart Hydropower production data in the Sichuan Province in 2011

Chart Hydropower production data in the Hubei Province in 2011

Chart Hydropower production data in the Yunnan Province in 2011

Chart Hydropower production data in the Hunan Province in 2011

Chart Hydropower production data in the Guangxi Zhuang Autonomous Region in 2011

Chart Hydropower production data in the Qinghai Province in 2011

Chart Hydropower production data in the Guizhou Province in 2011

Chart Hydropower production data in the whole country in 2012

Chart Hydropower production data in the Sichuan Province in 2012

Chart Hydropower production data in the Hubei Province in 2012

Chart Hydropower production data in the Yunnan Province in 2012

Chart Hydropower production data in the Guizhou Province in 2012

Chart Hydropower production data in the Hunan Province in 2012

Chart Hydropower production data in the Guangxi Zhuang Autonomous Region in 2012

Chart Hydropower production data in the Fujian Province in 2012

Chart Comparison of China' s small hydropower installed capacity in 2002 and 2011

Chart Sales revenue of hydropower industry from 2008 to 2012

Chart Sales revenue growth trend of hydropower industry from 2008 to 2012

Chart Sales amount of defferent sizes of hydropower enterprises from 2010 to 2011

Chart Comparison chart of sales amount of defferent sized hydropower enterprises in 2011

Chart Sales amount of defferent sizes of hydropower enterprises in 2012

Chart Comparison chart of sales amount of defferent sized hydropower enterprises in 2012

Chart Sales amount of defferent ownership of hydropower enterprises from

2010 to 2011

Chart Sales amount comparison chart of hydropower enterprises of different ownership in 2011

Chart Sales amount of defferent ownership of hydropower enterprises in 2012

Chart Sales amount comparison chart of hydropower enterprises of different ownership in 2012

Chart Total profit of hydropower industry from 2008 to 2012

Chart Total profit growth trend of hydropower industry from 2008 to 2012

Chart Total profit of defferent sizes of hydropower enterprises from 2010 to 2011

Chart Comparison chart of total profit of defferent sized hydropower enterprises in 2011

Chart Total profit of defferent sizes of hydropower enterprises in 2012

Chart Comparison chart of total profit of defferent sized hydropower enterprises in 2012

Chart Total profit of defferent ownership of hydropower enterprises from 2010 to 2011

Chart Total profit comparison chart of hydropower enterprises of different ownership in 2011

Chart Total profit of defferent ownership of hydropower enterprises in 2012

Chart Total profit comparison chart of hydropower enterprises of different ownership in 2012

Chart Total assets growth trend of hydropower industry from 2008 to 2012

Chart Total assets of defferent sizes of hydropower enterprises up to 2012

Chart Total assets comparison chart of hydropower enterprises of different size up to 2012

Chart Total assets of different ownership of hydropower enterprises up to 2012

Chart Total assets comparison chart of hydropower enterprises of different ownership up to 2012

Chart Total loss of hydropower industry from 2008 to 2012

Chart Total loss of unprofitable enterprises of hydropower industry from 2008 to 2012

Chart Gross margin trends of hydropower industry from 2008 to 2012

Chart Cost profit ratio of hydropower industry from 2008 to 2012

Chart Cost profit ratio trends of hydropower industry from 2008 to 2012

Chart Profitability trends of hydropower industry from 2008 to 2012

Chart Accounts receivable turnover ratio comparison chart of hydropower industry from 2008 to 2012

Chart Comparison chart of current assets turnover ratio of hydropower industry from 2008 to 2012

Chart Comparison chart of total assets turnover ratio of hydropower industry from 2008 to 2012

Chart Comparison chart of asset-liability ratio of hydropower industry from 2008 to 2012

Chart Comparison chart of interest coverage ratio of hydropower industry from 2009 to 2012

Chart Partition table of new rural hydropower electrification planning during the "Twelfth Five-Year Planning" period

Chart Schematic diagram of the layout of China's new rural hydropower electrification construction planning area during the "Twelfth Five-Year Planning" period

Chart Schematic diagram of untapped amount of rural hydropower resource

technology and installed capacity during the “Twelfth Five-Year Planning” period in each district

Chart Regional summary of the total size of planning power engineering during the “Twelfth Five-Year Planning” period

Chart New rural hydropower installed capacity of each planning region during the “Twelfth Five-Year Planning” period

Chart New rural hydropower generating capacity of each planning region during the “Twelfth Five-Year Planning” period

Chart Reconstructed rural hydropower installed capacity of each planning region during the “Twelfth Five-Year Planning” period

Chart Annual generating capacity of reconstructed rural hydropower stations of each planning region during the “Twelfth Five-Year Planning” period

Chart Summary of the total size of the proposed power grid project during the “Twelfth Five-Year Planning” period

Chart Basic social and economic conditions in Southwest Area

Chart Layout of the new rural hydropower electrification planning in the Southwest Planning Area

Chart Power supply situation table in Southwest Area

Chart Summary of the total size of power project in Southwest Area during the “Twelfth Five-Year Planning” period

Chart Summary of new power project in Southwest Area during the “Twelfth Five-Year Planning” period

Chart Summary of technical-innovation power project in Southwest Area during the “Twelfth Five-Year Planning” period

Chart Summary of indicators of power engineering properties in Southwest Area during the “Twelfth Five-Year Planning” period

Chart Summary of power project in Southwest minority counties during the

“Twelfth Five-Year Planning” period

Chart Summary of power project in key Southwest counties for national poverty alleviation and development work during the “Twelfth Five-Year Planning” period

Chart Basic social and economic conditions in Northwest Area

Chart Layout of the new rural hydropower electrification planning in the Northwest Planning Area

Chart Power supply situation table in Northwest Area

Chart Summary of the total size of power project in Northwest Area during the “Twelfth Five-Year Planning” period

Chart Summary of new power project in Northwest Area during the “Twelfth Five-Year Planning” period

Chart Summary of technical-innovation power project in Northwest Area during the “Twelfth Five-Year Planning” period

Chart Summary of indicators of power engineering properties in Northwest Area during the “Twelfth Five-Year Planning” period

Chart Summary of power project in Northwest minority counties during the “Twelfth Five-Year Planning” period

Chart Summary of power project in key Northwest counties for national poverty alleviation and development work during the “Twelfth Five-Year Planning” period

Chart Basic social and economic conditions in Northeast Area

Chart Layout of the new rural hydropower electrification planning in the Northeast Planning Area

Chart Power supply situation table in Northeast Area

Chart Summary of the total size of power project in Northeast Area during the “Twelfth Five-Year Planning” period

Chart Summary of new power project in Northeast Area during the “Twelfth Five-Year Planning” period

Chart Summary of technical-innovation power project in Northeast Area during the “Twelfth Five-Year Planning” period

Chart Summary of indicators of power engineering properties in Northeast Area during the “Twelfth Five-Year Planning” period

Chart Summary of power project in Northeast minority counties during the “Twelfth Five-Year Planning” period

Chart Summary of power project in key Northeast counties for national poverty alleviation and development work during the “Twelfth Five-Year Planning” period

Chart Basic social and economic conditions in Central Area

Chart Layout of the new rural hydropower electrification planning in the Central Planning Area

Chart Power supply situation table in Central Area

Chart Summary of the total size of power project in Central Area during the “Twelfth Five-Year Planning” period

Chart Summary of new power project in Central Area during the “Twelfth Five-Year Planning” period

Chart Summary of technical-innovation power project in Central Area during the “Twelfth Five-Year Planning” period

Chart Summary of indicators of power engineering properties in Central Area during the “Twelfth Five-Year Planning” period

Chart Summary of power project in minority counties of the Central Area during the “Twelfth Five-Year Planning” period

Chart Summary of power project in key counties of the Central Area for national poverty alleviation and development work during the “Twelfth

Five-Year Planning” period

Chart Basic social and economic conditions in Southeast Coastal Area

Chart Layout of the new rural hydropower electrification planning in the Southeast Planning Area

Chart Power supply situation table in Southeast Coastal Area

Chart Summary of the total size of power project in Southeast Coastal Area during the “Twelfth Five-Year Planning” period

Chart Summary of new power project in Southeast Coastal Area during the “Twelfth Five-Year Planning” period

Chart Summary of technical-innovation power project in Southeast Coastal Area during the “Twelfth Five-Year Planning” period

Chart Summary of indicators of power engineering properties in Southeast Coastal Area during the “Twelfth Five-Year Planning” period

Chart Summary of power project in minority counties of the Southeast Coastal Area during the “Twelfth Five-Year Planning” period

Chart Summary of power project in key counties of the Southeast Coastal Area for national poverty alleviation and development work during the “Twelfth Five-Year Planning” period

Chart The main parameters summary of construction capital assessment of new rural hydropower electrification during the “Twelfth Five-Year Planning” period

Chart Summary table of benefit analysis and calculation results of new rural hydropower electrification construction project for 25 years

Chart Comparison chart of rural hydropower on-grid price and the national power generation (thermal power) average on-grid price benefit in 2008

Chart Water resistance tolerance wiring principle

Chart The time curve of plant renovation

Chart 6 steps of identification of possible reconstruction, expansion projects through the assessment

Chart Comparison table of Wan River runoff depth

Chart Review results of runoff and hydeoenergy indicator of Dalongtan Hydropower Station

Chart Comparison table of tunnel lining and non-lining feature

Chart Monthly cumulative production growth rate of China' s hydro-generating unit and turbine from 2011 to 2012

Chart Yield data of hydro-generating unit in the whole country in 2010

Chart Yield data of hydro-generating unit in Sichuan Province in 2010

Chart Yield data of hydro-generating unit in Heilongjiang Province in 2010

Chart Yield data of hydro-generating unit in Zhejiang Province in 2010

Chart Yield data of hydro-generating unit in Tianjin City in 2010

Chart Yield data of hydro-generating unit in Guangdong Province in 2010

Chart Yield data of hydro-generating unit in Fujian Province in 2010

Chart Yield data of hydro-generating unit in Chongqing City in 2010

Chart Yield data of hydro-generating unit in the whole country in 2011

Chart Yield data of hydro-generating unit in Heilongjiang Province in 2011

Chart Yield data of hydro-generating unit in Sichuan Province in 2011

Chart Yield data of hydro-generating unit in Tianjin City in 2011

Chart Yield data of hydro-generating unit in Zhejiang Province in 2011

Chart Yield data of hydro-generating unit in Fujian Province in 2011

Chart Yield data of hydro-generating unit in Chongqing City in 2011

Chart Yield data of hydro-generating unit in Guangdong Province in 2011

Chart Yield data of hydro-generating unit in the whole country in 2012

Chart Yield data of hydro-generating unit in Sichuan Province in 2012

Chart Yield data of hydro-generating unit in Zhejiang Province in 2012

Chart Yield data of hydro-generating unit in Tianjin City in 2012

Chart Yield data of hydro-generating unit in Yunnan Province in 2012

Chart Comparison of main financing channels in different periods

Chart Capital source structure of basic hydropower construction from 2011 to 2020

Chart Trends of hydropower investment cost

Chart Canadian bond market financing of hydropower station

Chart Bond issuance of two typical power corporate

Chart Hydropower development goals of the “Twelfth Five-Year Planning”

Chart Hydropower development layout of the “Twelfth Five-Year Planning”

Chart Small hydropower development focus of the “Twelfth Five-Year Planning”

Chart CIConsulting’ s forecast of sales revenue of Chinese hydropower product from 2013 to 2017

Chart CIConsulting’ s forecast of total profit of Chinese hydropower product from 2013 to 2017

Chart CIConsulting’ s forecast of total industrial output of Chinese hydropower product from 2013 to 2017

Chart CIConsulting’ s forecast of Chinese hydropower generation from 2013 to 2017

Chart CIConsulting’ s forecast of Chinese hydropower installed capacity from 2013 to 2017

Chart Overall scale data of China Yangtze Power Co., Ltd. from 2008 to 2011

Chart Production and sales scale data of China Yangtze Power Co., Ltd. from 2008 to 2011

Chart Profitability of China Yangtze Power Co., Ltd. from 2008 to 2011

Chart Key indicators of solvency of China Yangtze Power Co., Ltd. from 2008

to 2011

Chart Key indicators of operational capacity of China Yangtze Power Co., Ltd.
from 2008 to 2011

Chart Key indicators of profitability of China Yangtze Power Co., Ltd. from
2008 to 2011

Chart Key indicators of growth capacity of China Yangtze Power Co., Ltd.
from 2008 to 2011

Chart Overall scale data of Huanghe Hydropower Development Co. Ltd. from
2008 to 2011

Chart Production and sales scale data of Huanghe Hydropower Development
Co. Ltd. from 2008 to 2011

Chart Profitability of Huanghe Hydropower Development Co. Ltd. from 2008
to 2011

Chart Key indicators of solvency of Huanghe Hydropower Development Co.
Ltd. from 2008 to 2011

Chart Key indicators of operational capacity of Huanghe Hydropower
Development Co. Ltd. from 2008 to 2011

Chart Key indicators of profitability of Huanghe Hydropower Development
Co. Ltd. from 2008 to 2011

Chart Key indicators of growth capacity of Huanghe Hydropower
Development Co. Ltd. from 2008 to 2011

Chart Overall scale data of Longtan Hydropower Development Co. Ltd. from
2008 to 2011

Chart Production and sales scale data of Longtan Hydropower Development
Co. Ltd. from 2008 to 2011

Chart Profitability of Longtan Hydropower Development Co. Ltd. from 2008
to 2011

Chart Key indicators of solvency of Longtan Hydropower Development Co. Ltd. from 2008 to 2011

Chart Key indicators of operational capacity of Longtan Hydropower Development Co. Ltd. from 2008 to 2011

Chart Key indicators of profitability of Longtan Hydropower Development Co. Ltd. from 2008 to 2011

Chart Key indicators of growth capacity of Longtan Hydropower Development Co. Ltd. from 2008 to 2011

Chart Overall scale data of Guizhou Wujiang Hydropower Development Co., Ltd. from 2008 to 2011

Chart Production and sales scale data of Guizhou Wujiang Hydropower Development Co., Ltd. from 2008 to 2011

Chart Profitability of Guizhou Wujiang Hydropower Development Co., Ltd. from 2008 to 2011

Chart Key indicators of solvency of Guizhou Wujiang Hydropower Development Co., Ltd. from 2008 to 2011

Chart Key indicators of operational capacity of Guizhou Wujiang Hydropower Development Co., Ltd. from 2008 to 2011

Chart Key indicators of profitability of Guizhou Wujiang Hydropower Development Co., Ltd. from 2008 to 2011

Chart Key indicators of growth capacity of Guizhou Wujiang Hydropower Development Co., Ltd. from 2008 to 2011

Chart Overall scale data of Wuling Power Co., Ltd. from 2008 to 2011

Chart Production and sales scale data of Wuling Power Co., Ltd. from 2008 to 2011

Chart Profitability of Wuling Power Co., Ltd. from 2008 to 2011

Chart Key indicators of solvency of Wuling Power Co., Ltd. from 2008 to 2011

Chart Key indicators of operational capacity of Wuling Power Co., Ltd. from 2008 to 2011

Chart Key indicators of profitability of Wuling Power Co., Ltd. from 2008 to 2011

Chart Key indicators of growth capacity of Wuling Power Co., Ltd. from 2008 to 2011

Chart Overall scale data of Yalong River Hydropower Development Co., Ltd. from 2008 to 2011

Chart Production and sales scale data of Yalong River Hydropower Development Co., Ltd. from 2008 to 2011

Chart Profitability of Yalong River Hydropower Development Co., Ltd. from 2008 to 2011

Chart Key indicators of solvency of Yalong River Hydropower Development Co., Ltd. from 2008 to 2011

Chart Key indicators of operational capacity of Yalong River Hydropower Development Co., Ltd. from 2008 to 2011

Chart Key indicators of profitability of Yalong River Hydropower Development Co., Ltd. from 2008 to 2011

Chart Key indicators of growth capacity of Yalong River Hydropower Development Co., Ltd. from 2008 to 2011

Chart Overall scale data of Huaneng Lancang River Hydropower Co., Ltd. (Guandu Region) from 2008 to 2011

Chart Production and sales scale data of Huaneng Lancang River Hydropower Co., Ltd. (Guandu Region) from 2008 to 2011

Chart Profitability of Huaneng Lancang River Hydropower Co., Ltd. (Guandu Region) from 2008 to 2011

Chart Key indicators of solvency of Huaneng Lancang River Hydropower Co.,

Ltd. (Guandu Region) from 2008 to 2011

Chart Key indicators of operational capacity of Huaneng Lancang River Hydropower Co., Ltd. (Guandu Region) from 2008 to 2011

Chart Key indicators of profitability of Huaneng Lancang River Hydropower Co., Ltd. (Guandu Region) from 2008 to 2011

Chart Key indicators of growth capacity of Huaneng Lancang River Hydropower Co., Ltd. (Guandu Region) from 2008 to 2011

Chart Overall scale data of Hubei Qingjiang Hydropower Development Co., Ltd. from 2008 to 2011

Chart Production and sales scale data of Hubei Qingjiang Hydropower Development Co., Ltd. from 2008 to 2011

Chart Profitability of Hubei Qingjiang Hydropower Development Co., Ltd. from 2008 to 2011

Chart Key indicators of solvency of Hubei Qingjiang Hydropower Development Co., Ltd. from 2008 to 2011

Chart Key indicators of operational capacity of Hubei Qingjiang Hydropower Development Co., Ltd. from 2008 to 2011

Chart Key indicators of profitability of Hubei Qingjiang Hydropower Development Co., Ltd. from 2008 to 2011

Chart Key indicators of growth capacity of Hubei Qingjiang Hydropower Development Co., Ltd. from 2008 to 2011

Chart Overall scale data of East China Tianhuangping Pumped Storage Power Co., Ltd. from 2008 to 2011

Chart Production and sales scale data of East China Tianhuangping Pumped Storage Power Co., Ltd. from 2008 to 2011

Chart Profitability of East China Tianhuangping Pumped Storage Power Co., Ltd. from 2008 to 2011

Chart Key indicators of solvency of East China Tianhuangping Pumped Storage Power Co., Ltd. from 2008 to 2011

Chart Key indicators of operational capacity of East China Tianhuangping Pumped Storage Power Co., Ltd. from 2008 to 2011

Chart Key indicators of profitability of East China Tianhuangping Pumped Storage Power Co., Ltd. from 2008 to 2011

Chart Key indicators of growth capacity of East China Tianhuangping Pumped Storage Power Co., Ltd. from 2008 to 2011

Chart Overall scale data of Sichuan Baozhusi Hydropower Plant of China Huadian Corporation from 2008 to 2011

Chart Production and sales scale data of Sichuan Baozhusi Hydropower Plant of China Huadian Corporation from 2008 to 2011

Chart Profitability of Sichuan Baozhusi Hydropower Plant of China Huadian Corporation from 2008 to 2011

Chart Key indicators of solvency of Sichuan Baozhusi Hydropower Plant of China Huadian Corporation from 2008 to 2011

Chart Key indicators of operational capacity of Sichuan Baozhusi Hydropower Plant of China Huadian Corporation from 2008 to 2011

Chart Key indicators of profitability of Sichuan Baozhusi Hydropower Plant of China Huadian Corporation from 2008 to 2011

Chart Key indicators of growth capacity of Sichuan Baozhusi Hydropower Plant of China Huadian Corporation from 2008 to 2011

Chart Overall scale data of Huanghe Hydropower Development Co., Ltd. (Xiaolangdi Construction Bureau) from 2008 to 2011

Chart Production and sales scale data of Huanghe Hydropower Development Co., Ltd. (Xiaolangdi Construction Bureau) from 2008 to 2011

Chart Profitability of Huanghe Hydropower Development Co., Ltd.

(Xiaolangdi Construction Bureau) from 2008 to 2011

Chart Key indicators of solvency of Huanghe Hydropower Development Co., Ltd. (Xiaolangdi Construction Bureau) from 2008 to 2011

Chart Key indicators of operational capacity of Huanghe Hydropower Development Co., Ltd. (Xiaolangdi Construction Bureau) from 2008 to 2011

Chart Key indicators of profitability of Huanghe Hydropower Development Co., Ltd. (Xiaolangdi Construction Bureau) from 2008 to 2011

Chart Key indicators of growth capacity of Huanghe Hydropower Development Co., Ltd. (Xiaolangdi Construction Bureau) from 2008 to 2011

Chart Overall scale data of Guodian Daduhe Company Jizui Hydropower Generation Plant from 2008 to 2011

Chart Production and sales scale data of Guodian Daduhe Company Jizui Hydropower Generation Plant from 2008 to 2011

Chart Profitability of Guodian Daduhe Company Jizui Hydropower Generation Plant from 2008 to 2011

Chart Key indicators of solvency of Guodian Daduhe Company Jizui Hydropower Generation Plant from 2008 to 2011

Chart Key indicators of operational capacity of Guodian Daduhe Company Jizui Hydropower Generation Plant from 2008 to 2011

Chart Key indicators of profitability of Guodian Daduhe Company Jizui Hydropower Generation Plant from 2008 to 2011

Chart Key indicators of growth capacity of Guodian Daduhe Company Jizui Hydropower Generation Plant from 2008 to 2011

Chart Overall scale data of Fujian Shuikou Power Generation Group Co., Ltd. from 2008 to 2011

Chart Production and sales scale data of Fujian Shuikou Power Generation Group Co., Ltd. from 2008 to 2011

Chart Profitability of Fujian Shuikou Power Generation Group Co., Ltd. from 2008 to 2011

Chart Key indicators of solvency of Fujian Shuikou Power Generation Group Co., Ltd. from 2008 to 2011

Chart Key indicators of operational capacity of Fujian Shuikou Power Generation Group Co., Ltd. from 2008 to 2011

Chart Key indicators of profitability of Fujian Shuikou Power Generation Group Co., Ltd. from 2008 to 2011

Chart Key indicators of growth capacity of Fujian Shuikou Power Generation Group Co., Ltd. from 2008 to 2011

Chart Overall scale data of Guotou Yunnan Dachaoshan Hydropower Company Limited (Wuhua Region) from 2008 to 2011

Chart Production and sales scale data of Guotou Yunnan Dachaoshan Hydropower Company Limited (Wuhua Region) from 2008 to 2011

Chart Profitability of Guotou Yunnan Dachaoshan Hydropower Company Limited (Wuhua Region) from 2008 to 2011

Chart Key indicators of solvency of Guotou Yunnan Dachaoshan Hydropower Company Limited (Wuhua Region) from 2008 to 2011

Chart Key indicators of operational capacity of Guotou Yunnan Dachaoshan Hydropower Company Limited (Wuhua Region) from 2008 to 2011

Chart Key indicators of profitability of Guotou Yunnan Dachaoshan Hydropower Company Limited (Wuhua Region) from 2008 to 2011

Chart Key indicators of growth capacity of Guotou Yunnan Dachaoshan Hydropower Company Limited (Wuhua Region) from 2008 to 2011

Chart Overall scale data of Hubei Qingjiang Hydropower Development Co., Ltd. (Shuibuya) from 2008 to 2011

Chart Production and sales scale data of Hubei Qingjiang Hydropower

Development Co., Ltd. (Shuibuya) from 2008 to 2011

Chart Profitability of Hubei Qingjiang Hydropower Development Co., Ltd.
(Shuibuya) from 2008 to 2011

Chart Key indicators of solvency of Hubei Qingjiang Hydropower
Development Co., Ltd. (Shuibuya) from 2008 to 2011

Chart Key indicators of operational capacity of Hubei Qingjiang Hydropower
Development Co., Ltd. (Shuibuya) from 2008 to 2011

Chart Key indicators of profitability of Hubei Qingjiang Hydropower
Development Co., Ltd. (Shuibuya) from 2008 to 2011

Chart Key indicators of growth capacity of Hubei Qingjiang Hydropower
Development Co., Ltd. (Shuibuya) from 2008 to 2011

Chart Overall scale data of Guizhou Qianyan Power Co., Ltd. from 2008 to
2011

Chart Production and sales scale data of Guizhou Qianyan Power Co., Ltd.
from 2008 to 2011

Chart Profitability of Guizhou Qianyan Power Co., Ltd. from 2008 to 2011

Chart Key indicators of solvency of Guizhou Qianyan Power Co., Ltd. from
2008 to 2011

Chart Key indicators of operational capacity of Guizhou Qianyan Power Co.,
Ltd. from 2008 to 2011

Chart Key indicators of profitability of Guizhou Qianyan Power Co., Ltd.
from 2008 to 2011

Chart Key indicators of growth capacity of Guizhou Qianyan Power Co., Ltd.
from 2008 to 2011

Chart Overall scale data of Datang Yantan Hydropower Co., Ltd. from 2008 to
2011

Chart Production and sales scale data of Datang Yantan Hydropower Co., Ltd.

from 2008 to 2011

Chart Profitability of Datang Yantan Hydropower Co., Ltd. from 2008 to 2011

Chart Key indicators of solvency of Datang Yantan Hydropower Co., Ltd. from 2008 to 2011

Chart Key indicators of operational capacity of Datang Yantan Hydropower Co., Ltd. from 2008 to 2011

Chart Key indicators of profitability of Datang Yantan Hydropower Co., Ltd. from 2008 to 2011

Chart Key indicators of growth capacity of Datang Yantan Hydropower Co., Ltd. from 2008 to 2011

Chart Overall scale data of Hanjiang hydropower (Group) Co., Ltd. from 2008 to 2011

Chart Production and sales scale data of Hanjiang hydropower (Group) Co., Ltd. from 2008 to 2011

Chart Profitability of Hanjiang hydropower (Group) Co., Ltd. from 2008 to 2011

Chart Key indicators of solvency of Hanjiang hydropower (Group) Co., Ltd. from 2008 to 2011

Chart Key indicators of operational capacity of Hanjiang hydropower (Group) Co., Ltd. from 2008 to 2011

Chart Key indicators of profitability of Hanjiang hydropower (Group) Co., Ltd. from 2008 to 2011

Chart Key indicators of growth capacity of Hanjiang hydropower (Group) Co., Ltd. from 2008 to 2011

Chart Overall scale data of Tianshengqiao- I Hydro-Power Development Co., Ltd. from 2008 to 2011

Chart Production and sales scale data of Tianshengqiao- I Hydro-Power

Development Co., Ltd. from 2008 to 2011

Chart Profitability of Tianshengqiao- I Hydro-Power Development Co., Ltd. from 2008 to 2011

Chart Key indicators of solvency of Tianshengqiao- I Hydro-Power Development Co., Ltd. from 2008 to 2011

Chart Key indicators of operational capacity of Tianshengqiao- I Hydro-Power Development Co., Ltd. from 2008 to 2011

Chart Key indicators of profitability of Tianshengqiao- I Hydro-Power Development Co., Ltd. from 2008 to 2011

Chart Key indicators of growth capacity of Tianshengqiao- I Hydro-Power Development Co., Ltd. from 2008 to 2011

Chart Overall scale data of Sichuan Huaneng Baoxing Power Co., Ltd. from 2008 to 2011
